ADDITIONAL INFORMATION

The Hybrid Series Kills 99.9% Of Bacteria & Parasites

Thanks to its advanced UV technology – called Radfire™ – the Hybrid series kills 99.9% of tank water bacteria. Nothing else even comes close. Radfire™ is a natural water purification process, that's ecofriendly and completely chemical free. So you get safe, purified water at every outlet in the house.

It Filters Your Water Too

As its name suggests, the Hybrid series combines two technologies to clean your water. In addition to killing 99.9% of bacteria with UV rays, it filters out chemicals, as well as sediment and anything else that manages to pass through your rainwater tank's coarser filter. This not only makes your water taste and smell great, but also prolongs the life of your household appliances.

Longer Filter Life

The Hybrid series incorporates Puretec's long life filter technology, so you can go longer between filter replacements, and comes with our **3 Year Platinum Protection Warranty**^.

1 Stage 1 Filtration

A washable sediment filter that removes silt, sludge, dirt and rust

2 Stage 2 Filtration

A solid 1 micron filter to remove fine particles

3 Ultraviolet Protection

Kills 99.9% of bacteria with Radfire ultraviolet technology, a natural purification process that's completely eco-friendly and chemical-free
